**Wisconsin Department of Children and Families**

As Wisconsin keeps physically healthy by staying Safer at Home, children have fewer interactions with many of the professionals trained to observe and mandated to report suspected child abuse. It is critical now, more than ever, for families, friends, and neighbors to be aware of the signs of child abuse and neglect and to know how to report those signs to their local child welfare agencies.

**Know the Signs:**

To report a case of child abuse or neglect, contact the county or tribe where the child or child’s family lives. If the agency is not known, contact the closest county or call 9-1-1. Contact information for county and tribal child welfare agencies is available on [dcf.wisconsin.gov](http://dcf.wisconsin.gov).
